

# Additional Health Requirements for Animals exhibited at the Tioga County Fair.

## DAIRY AND BEEF CATTLE

### VACCINATION REQUIREMENT of Tioga Co. Fair

All cattle must be accompanied by a Certificate of Veterinary Inspection, signed by an accredited veterinarian, that includes a statement that the animal(s) identified have been immunized against IBR, PI3, and BVD. Animals that have never been vaccinated against BVD, IBR, PI3 AND BRSV or have not been vaccinated against BVD during the previous 12 months, must receive one dose of modified live virus vaccine given at least 15 days, and not more than 180 days before the show, or two doses of killed vaccine, two to four weeks apart, with the last dose given at least 15 days and not more than 180 days before the show. Animals that have been vaccinated against BVD, IBR, PI3 AND BRSV within the previous 12 months must receive at least a single injection of modified live virus or killed virus vaccine given not less than 15 days and not more than 180 days before the show.

Hyperimmune serum may not be used as a substitute for the above vaccination requirement.

A current rabies vaccination administered by a licensed veterinarian is required for animals 3 months of age and older (market cattle are exempt from this vaccination requirement). All vaccine label directions must be followed, and all rabies vaccinated cattle must be accompanied by a rabies vaccination certificate or the vaccination information must be included on the CVI. If a rabies vaccination certificate is provided, the certificate must contain legible name and contact information of the veterinarian who administered the vaccine and the veterinarian's signature. A copy of the rabies vaccination certificate is acceptable.

Rabies vaccination must be administered prior to July 22, 2025.)

Tioga Co. Fair requirement.

### Equine Animals

A current rabies vaccination administered by a licensed veterinarian is required for animals three months of age and older. The name of the product used, date of administration and Veterinarian administering the rabies vaccination should appear on the CVI or on a Rabies vaccination certificate and this information should correlate to a written description of the horse, and any and all forms of identification associated with the horse -such as lip, tattoos, brands, or microchips.

Rabies vaccination must be administered prior to July 22, 2025.)

All equine animals must be test negative for EIA by a official test within the 12 months prior to the opening date of the exhibition. Laboratory test results must accompany each animal to its final destination ( a copy of the original lab report is acceptable).

A current rabies vaccination administered by a licensed veterinarian is required for animals 3 months of age and older (market sheep are exempt from this vaccination requirement). (Rabies vaccination must be administered between to July 22, 2022 and July 22, 2025) (Rabies vaccine in sheep is good for 3 years.)

**Slaughter animals (beef, swine, sheep) are exempt from Rabies Vaccination Requirements.**
